Eyewitness Tells Of Tons Of Cuba Arms

MIAMI (UPI)—An American eyewitness to the Communist buildup in Cuba said in a copyrighted radio report today that high speed vessels are transporting "tons of arms" and men from Cuban ports to Latin American countries almost daily.

The report, copyrighted by Miami radio station WGBS and the Storer Broadcasting Co., also said the Fidel Castro regime has "at least" 1,000 missiles which can reach the United States mainland.

Informed CIA

The American and his wife said they were residents of Cuba for more than eight years. They recorded their story for the radio station, but declined to permit use of their names for fear of reprisals against friends on the island.

The couple said they have given complete details about everything they have learned about Castro's

Khrushchev, Castro Talk Over Policy

MOSCOW (UPI) — Cuban Premier Fidel Castro, the cheers of an unprecedented welcome still ringing in his ears, settled down to serious business with Premier Nikita Khrushchev in the Kremlin today.

The official news agency Tass said the two leaders began a conference in Khrushchev's study at 10 a.m.

This meeting and others during Castro's extended stay are expected to deal with a wide range of vital questions, including economic aid for Cuba, Soviet military presence on the Caribbean island and the problem of armed attacks against Castro's Communist regime.

The tone for Castro's visit was set during Sunday's welcoming ceremonies at Vnukova Airport and in Red Square. Veteran Western observers said the red carpet treatment was the best ever accorded a foreigner here.

Given Bear Hug

Khrushchev gave the bearded Cuban the familiar kiss and bear hug as he did when they last met at the United Nations in 1960.

Castro, wearing his familiar military garb and a fur hat, was cheered by thousands of Russians lining the 12-mile route from the airport to Red Square, where he was given a 24-gun salute. Thousands more cheered as he spoke with Khrushchev from atop Lenin's marble mausoleum.

The Cuban flew in from Mursk, in the north, where he had arrived unannounced from Cuba Saturday. His intention to visit the Soviet Union at the invitation of Khrushchev was disclosed in Havana last month.

The length of Castro's visit has not been announced, but it was expected to be at least several weeks. One of the highlights will be the May Day celebrations Wednesday.

While outwardly the visit of Cuba's leader seemed all sweetness and light, diplomatic observers detected a lack of spark which characterized his 1960 meetings with Khrushchev in New York.

Feelings Still Ruffled

Some Western observers believed Castro's feelings still are ruffled over the Kremlin's decision to pull Soviet rockets out of Cuba last fall. Removal of the rockets was negotiated over Castro's head by the Soviet Union and the United States.

In their speeches from Lenin's tomb Sunday, Castro and Khrushchev praised Russia and Cuba—but not to each other. They seemed polite and correct in their relations—but not effusive and warm as in 1960.

Driest April May End Wet

The driest April in history may go out on a wet note tomorrow. A welcome sign of relief for Bucks County's parched grasslands and dry woodlands is promised for late tomorrow in the form of showers and thundershowers.

A low pressure system from the Mississippi Valley began spreading cloudiness into the area today as a high pressure system responsible for the fair weather during the weekend moved into the Atlantic Ocean.

To date, only three-tenths-of-an-inch of rain has fallen in Lower Bucks in April, causing a serious problem with lawns, shrubbery and farm crops suffering the most.

Residents are advised by gardening experts to water the lawns and shrubs "extensively" to prevent them from drying. It was pointed out that plants are dying off, not from the winter but due to the lack of rainfall this month.

We are sure you will find it interesting, stimulating. Material for it was prepared by administrative and faculty people themselves as a matter of fully translating the Centennial education story to people of the community of Lower Bucks County.

The final supplement of the series, on May 20, will be given over to Bishop Egan High School and the Catholic parochial schools in Lower Bucks.

The series of unusual and unique education magazines are being printed by the Courier-Times as a public service.

Threatens Haiti With Gunboats

By United Press International

The Dominican Republic cancelled troop leaves under a state of alert today and threatened to send gunboats to the Haitian capital of Port-Au-Prince in a bitter rift that stirred fears of armed conflict between the two neighboring Caribbean nations.

The organization of American States (OAS), in emergency moves to head off fighting, invoked the Inter-American Mutual Defense Treaty and voted to dispatch a five-member committee to the Caribbean island. The committee was expected to leave late this afternoon or this evening by special plane.

The Dominican government threatened, in a virtual ultimatum, to take armed action against Haiti by 8 p.m. today unless Haitian troops were removed from the Dominican Embassy in Port-Au-Prince. The Dominicans charged that Haitian troops seized their embassy in Port-Au-Prince and captured opposition Haitian personalities who had taken asylum there.

Cites Communist Ties

Haiti declared it would defend itself by "all available means."

The Dominicans charged that Haiti had developed secret ties with Communist Poland and Czechoslovakia that were "furthering Communist infiltration in the Caribbean area." Haiti countered by charging the Dominican government was trying to wage a "megalomaniacal" democratic

The Dominican Republic cancelled all military leaves Sunday night and ordered troops to report back to their bases as part of a series of emergency measures President Juan Bosch said were necessary to deal with constant aggression of the Haitian government against Dominican sovereignty.

In Port-Au-Prince, U.S. authorities were prepared to remove some 1,000 U.S. citizens now in that Negro republic to safety if the crisis worsened.

Anti-American feeling in Haiti was reported to have grown in recent weeks following U.S. action in cutting off economic aid to the dictatorial regime of President Francois Duvalier.

The new flareup was the latest

in a long series of disputes between the two nations who share the island of Hispaniola. It added to political tension that has been mounting steadily in Port-Au-Prince and stemmed from internal dissension over Duvalier's determination to remain in power.

Dispatches from Port-Au-Prince said the Haitian capital remained tense but no actual fighting was reported.

2 Convicted By Radar

A radar team from the Doylestown State Police Barracks won two speeding convictions Friday in Bucks County Criminal Court.

The two motorists are Robert J. Wert, New Britain, and Geoffrey A. Coudron of Jenkintown. Both had to pay a \$10 fine and costs.

Wert was arrested on Route 611, north of Doylestown by the radar team in August of 1962 and Coudron was apprehended in the same vicinity in February of this year.

Both men have waived a hearing before a justice or the peace at the time of their arrests.

Also convicted of speeding Friday was Sam Decaval Cante, Princeton, N. J. He was arrested on U. S. 1 in Falls Township in November of last year. Decaval-Cante, who had also waived a hearing before a JP, had to pay a \$10 fine and costs.

Southampton Senior Scientist Retires At Frankford Arsenal

Dr. Herschel Smith, 918 Churchville Road, Southampton, senior scientist at Frankford Arsenal, retired this week after 27 years service with the government.

Well known throughout the Southampton area for his participation in community projects, Dr. Smith most recently served with the township on the Sewer Authority.

His resignation from that post cleared the deadlock between the authority and the board of supervisors over the appointment of Eugene Haupt to take William Maxfield's place on that body.

When Dr. Smith resigned, the supervisors compromised with the authority by naming Maxfield to fill the scientist's unexpired term.

He has been honored by school groups and political and civic organizations for the leadership he has given in community affairs. Dr. Smith joined the Arsenal

military strength to the U.S. Central Intelligence Agency, according to WGBS.

Their report challenged official assessments of Castro's arsenal and estimates of Russian troop strength on the island by the U.S. government. Castro's power is constantly increasing, the American said, and he is literally exporting his revolution by shipments of arms and trained agents to other Latin nations.

Foreign troops from the Communist bloc nations and the U.S.S.R. now in Cuba total between 70,000 and 80,000 men, the American said.

In addition, Castro has about one-third of the island's population, some 2 million persons, under arms, he added.

He and his wife also reported that:

"At least 1,000 two-stage, 45-foot rockets—with an estimated minimum range of 300 miles—are in Cuba, many of them stored in caves.

High speed vessels, about 150 feet long and carrying no flag or insignia, are "running" small arms and trained saboteurs to Haiti, Guatemala, Venezuela, Chile, Peru and Argentina on a regular "schedule" of shipments.

Notes Sub Pens

—Submarine "pens" have been built under the guise of "fishing ports" at Mariel, near Havana, and at Banes, in Oriente Province, and service an estimated 50 Russian bloc submarines operated in and around Cuba.

—A new submarine base is under construction at the Isle of Pines "that will be the largest of its kind in the world."

—The Soviets have cleaned out, reinforced and ventilated about 50 huge natural caves in Oriente and Las Villas provinces alone and are using them as military depots for tanks, rockets and planes.

In his lengthy report, the American said his information was based in part on what he had seen personally and partly on what "completely reliable" underground sources—which include Castro army officers as well as Russians—told him.

He said the Russians did not remove all their bombers nor all their "real big" missiles—measuring up to 70 feet without a warhead—despite their claims to the contrary.

Rites To Mark Law Day Here

Harriet M. Mims, as chairman of the Law Day USA Committee, will preside at the ceremony to be held Wednesday at 9:30 a.m. in Court Room 1. An explanation of the objectives of Law Day, together with a summary of Law Day activities will be made.

Barbara A. Alderfer, a Central Bucks High School student, will give a short talk on the meaning of Law Day to her.

A scroll of "A Judge's Obligations" will be presented to President Judge Edward Biester, and a scroll of "A Lawyer's Obligations" will be presented to T. Sidney Cadwallader, president of the Bucks County Bar Association. There will be brief addresses by Judge Biester and Cadwallader. The public is invited.

Cornwells Family Has Share Of Accidents

A Cornwells Heights family had more than their share of accidents Saturday. First their 5½-year-old son, Kevin McCartney, got too close to a farm tractor with a mower attachment, and was thrown several feet after his legs were struck by one of the wheels. Later, another son, Michael, 10, fell from a tree.

Although Kevin sustained fractured legs, the boy's parents said they were thankful that he was not struck by the mower blades. The tractor was being driven by Gilbert Meyers, a neighbor who was cutting his lawn.

city. He received his Master's degree from the University and his Doctorate in 1930.

In Pittman - Dunnlab

During his service in the Arsenal, Dr. Smith occupied several posts of importance in the Pittman-Dunn Laboratories of the Research & Development Group, culminating in his appointment as Senior Scientist.

Dr. Smith is the author of numerous scientific papers and is the holder of three patents with military applications. For his services during World War II, he received the Department of Army Award for Meritorious Civilian Service.

Dr. Smith said that he plans to devote considerable time to travel with Mrs. Smith.

Misses Boy, Hits House

An auto, which swerved to avoid hitting a youngster in the street, wound up ramming into the side of a house in Bristol Terrace.

The mishap took place at 5:30 p.m. Saturday in front of 1119 Court H, Bristol Terrace 2.

Bristol Township police reported that the car, operated by Moses Rivera, 33, of the Bronx, N. Y., swerved to avoid hitting a little boy who had darted out into the street. The car then hit a concrete post, went across the sidewalk, over a lawn and into the side of the house. Damage to the house and fence was estimated at \$500.

Rivera was treated at Lower Bucks County Hospital for injuries of the right shoulder and cuts of the chin.

Two other occupants in his car were injured. They were Adrea Santos, 21, injuries to right hip and thigh, and Nellie Reyes, 18, cuts of the forehead and injuries of the chest and abdomen.

Firemen Get Another Siren

Firemen of Levittown Fire Co. No. 2 should have no trouble hearing the fire alarm, now that the company has two sirens.

In addition to the one atop the fire house on the Newportville-Fallsington Road, a new siren has been put up behind the First Baptist Church of Levittown and Fairless Hills on Emilie Road.

The siren was put up with the help of the Falls Township Fire Co. and its new 85-foot ladder.

Firemen living in the Indian Creek, Whitewood, Blue Ridge and Goldenridge sections of Levittown had trouble hearing the siren at the fire house.

Pony Tale A Yard High

The Falls Township dog catcher, William Jackson, had more than he bargained for Saturday—a pony.

The stray pony, reportedly belonging to a Middletown police officer, was apprehended by Falls police about 2 o'clock Saturday afternoon in Vermilion Hill and brought to headquarters. Since the dog pound wasn't big enough the pony was sent to Snipes Farm, Route 1, Fallsington, to await its owner.

The pony is described as all black except for grey hair on its nose. It's about a yard high.

Twp. Candidate Hurt In Crash

A Croydon man was injured Saturday night when his car was struck from the rear on State Road at Fourth Ave., Croydon.

Bristol Township police reported that Andrew T. Dickinson, 44, of 308 Miller Ave., had stopped for a truck when his vehicle was struck by an auto driven by Lee M. Goodman, 47, of 3259 Clive Ave., Cornwall Heights.

Goodman was taken to Lower Bucks County Hospital where he was pronounced under the influence of intoxicants. Arraigned before Justice of the Peace Rene J. Tritschler, Croydon, he was released in \$500 bail for court on a drunken driving charge.

Dickinson, a Democratic candidate for township commissioner from the first ward, was treated at Lower Bucks County Hospital for a cervical strain and released.

Township police reported that Montgomery had been drinking and became very abusive while being questioned. He was arraigned at 4 a.m. before Justice of the Peace James V. Parto, Tullytown.

Unsanitary Conditions Are Cited

Bristol Township officials have charged the Veterans Administration with "gross neglect" in permitting unsanitary and unhealthy conditions to exist in a score of homes in Croydon Acres.

Leonard L. Newman, township director of licenses and inspections, disclosed that violation notices have been sent to the VA's property management section in Philadelphia.

The notices inform the VA that it has two days to start work in correcting the conditions or 10 days in which to appeal the violations. Newman said fines of \$25 a day for each violation could be levied against the government agency if it fails to comply.

Tour Homes

Newman and other township officials toured the homes Saturday, during which time they observed blotches of mold on walls, paint peeling from the walls and veneer finish on furniture warping and curling.

Three township commissioners, Larry Cerasoli, Samuel Delp and Arthur F. Diehl Jr., made the inspection along with Newman and Bernard Shearn, former assistant U.S. attorney who lives in the Croydon Acres development at 101 Nancy Drive.

Cerasoli, who charged the VA with negligence, said the homes are "unfit to live in because of water condensation forced in by the heating system."

He explained that the condensation comes in from the hot air ducts which are imbedded in the concrete slab floors of the homes. In some of the homes water has seeped into the air ducts. Heated air forced through the ducts picks up the moisture and carries it into the homes.

Cerasoli warned that if the conditions are allowed to continue, "Croydon Acres will become a ghost town with families forced to move out."

Mr. and Mrs. John Boninkowski of 1207 Karen Ave., newlyweds, told the touring group they purchased their home last December and now have to sleep in the bedrooms.

Other homes, inspected by the group and called "unfit to live in," include those of Eugene Frazer, 1711 Spencer Drive; Mrs. A. Nevel, 1307 Karen Ave.; John R. O'Donnell, 1704 Spencer Drive; George Keiper, 1208 Spencer Drive; Harry J. Grinnin, 1706 Spencer Drive, and Robert J. Morgan, 1707 Spencer Drive.

Deplorable Condition

Cerasoli said that three vacant homes on Spencer Drive also were in "deplorable condition."

The commissioner said that Congressman Willard S. Curtin (R, Bucks-Lehigh) had been contacted about the conditions and told the township he would press for a congressional investigation if necessary.

The more than 20 homes involved are among the 475 in the development off Route 13. They were purchased from the developer with GI loans. The buyers, however, defaulted on the payments and the VA took over the mortgages, later re-selling the properties, but retaining the mortgages. The homes, worth approximately \$10,000 each, were built seven years ago.

The architectural firm engaged for the new church building is Mickelwright and Mountford of Trenton and Toms River, N. J. Myron L. Fetch, an associate of the firm, was the designer.

Woman Charged With Threats

A Bristol Terrace woman faces a hearing tonight for reportedly threatening the life of a neighbor.

Arlatha Gibson, 27, of 454 Court A, Bristol Terrace 2, was arrested at 12:45 p.m. yesterday by Patrolman James Dunn on charges of breach of the peace and disorderly conduct.

Dunn said the woman while under the influence of intoxicants had reportedly threatened the life of Maggie Bemberry, 458 Court A.

Arraigned before Justice of the Peace James V. Parto, Tullytown, Mrs. Gibson was placed in the Bristol Borough jail in default of \$500 bail. She will have a hearing before Parto at 11 p.m. today.

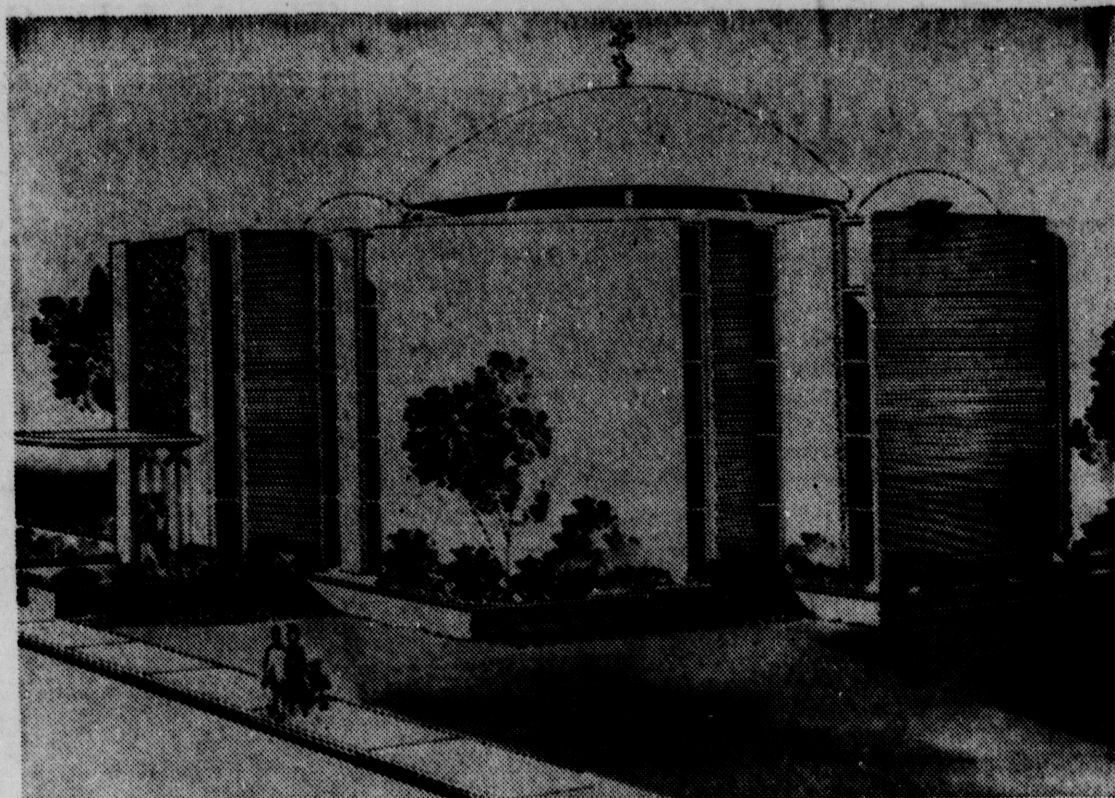

JP Fines Twp. Driver

Gerald F. Montgomery, 22, of 105 Laurel Ave., Laurel Bend, Bristol Township, was fined \$25 and \$9 costs Saturday after being arrested on Route 13.

Township police reported that Montgomery had been drinking and became very abusive while being questioned. He was arraigned at 4 a.m. before Justice of the Peace James V. Parto, Tullytown.

The McCartney's have three other children, Cheryl, 17, Carol, 16, and Neil Jr., 15.

seating capacity of 400. It is planned that construction will begin sometime in August.

The plan for the new church is in the design of a Cross covered with three domes — two small domes and one large dominating central dome over the sanctuary.

The physical structure of the church from the exterior will be enclosed by a low planting bed constructed of retaining walls. The planting area, also in the shape of a cross, is elevated roughly four feet from the existing grade and will completely enclose the building, except for its main entrance and secondary exits from other parts of the building.

Semi-Circular

The main entrance of the church leads into a narthex or vestibule and then into the nave of the church in which pew arrangement is semi-circular. The seating plan directs all attention to the main altar or sanctuary of the church.

The backdrop for the altar will be semi-circular in design, and this will be intercepted on both sides by curvilinear walls which will become the backdrop of the two side altars.

Off to the left of the nave, and below one of the small domes will be located the baptistery. Off to the right of the nave and below the second dome will be the choir.

Focal Point

The focal point of the exterior of the church will be the stained glass window directly above the entrance. It will depict the patron of the church, Our Lady of Perpetual Help.

Daylighting of the interior of the church will be by means of narrow shafts of glass. These accents of daylight will be placed in complete symmetry like the plan of the church in its cruciform design.

The architectural firm engaged for the new church building is Mickelwright and Mountford of Trenton and Toms River, N. J. Myron L. Fetch, an associate of the firm, was the designer.

Police Nab Prowler

With the capture of a 20-year old man at 1:50 o'clock this morning, Upper Southampton police believe that they have ended a long search for a "mysterious prowler" in the township.

A complaint was phoned in at 11:31 o'clock last night that a strange man was attempting to gain entrance into a house at 825 Grove Ave., Southampton. He was said to be first asking for medical help, then "making sounds like a wild animal or something from a horror picture," according to police.

The suspect, charged with prowling at night, resisting arrest and disorderly conduct, was taken to Norristown State Hospital by the Trevores Heights Rescue Squad, for observation.

Discharged Marine To Attend Rite

WASHINGTON (UPI) — A Marine officer discharged from the service on charges of slaying a suspected Cuban spy is among Medal of Honor winners invited to a White House ceremony Thursday.

The officer, former Capt. Arthur J. Jackson, said Sunday night that he intends to attend the ceremony. Jackson is now a mailman in San Jose, Calif.

"When they (the Department of Defense) get ready for me to talk, I'll say something," he said.

About 250 of the 294 living Medal of Honor winners were expected to attend the reception, arranged some time ago.

Jackson was one of four Marine officers dismissed from the service because of the 1961 incident involving a Cuban employed at the Guantanamo naval base.

One of the four, former Lt. William A. Szili, told newsmen Saturday that Jackson shot the Cuban in self-defense. Szili said he helped Jackson dispose of the body.

Szili said the Cuban was a Castro agent who was discovered prowling around a restricted powder magazine.

Yardley Woman Held In Bail

A Yardley woman was held for a further hearing on charges of disorderly conduct and surety of the peace by Justice of the Peace Samuel Hughes Saturday.

Mrs. Kathryn Walylenko, 37, of 119 Longshore Ave. was sent to Bucks County Prison in default of \$500 bail by Hughes. A further hearing will be held for her Thursday night at his office on Glenolden Road, Lower Makefield.

Hughes said a group of neighbors brought the charges after Mrs. Walylenko threatened them with a shovel. He said a series of incidents had occurred between her and her neighbors and had led up to this final incident, when they brought charges.

Hughes said Mrs. Walylenko is married and has a son.

Canal Days, Circa 1888, Slated In Yardley Fete

A return to the canal days of 1888 will be celebrated in Yardley on Saturday, May 25.

This gala affair, to be known as "Yardley Canal Days - 1888," will incorporate many unusual features. The main attraction will be free rides on a battery-operated, paddle-wheel boat along the Delaware Canal.

Folks will also be dressed in costumes of the period and a costume competition will be held. A street dance will be staged and everybody will get a first hand glimpse of Yardley's historic past.

"Yardley Canal Days" is a cooperative community effort and all proceeds will go to the Yardley-Makefield Fire Co.

The fete will be sponsored by the Carl F. Norberg Research Center in Yardley, whose parent company, the Electric Storage Battery Co. is celebrating its 75th anniversary this year.

Another attraction, which will be going on at the same time on May 25, will be the fifth annual clothesline art exhibit of the Yardley Art Association. It will be staged on grounds of the research firm at Main St. and College Ave.

Many people from throughout

this Lower Bucks area are expected to attend. Local borough and civic officials are expected to participate.

Mormons Set Smorgasbord

The Church of Jesus Christ of Latter Day Saints (Mormon) will hold a smorgasbord dinner Friday at the church on Big Oak Road, Lower Makefield.

Chairman Betty Ball announced that the dinner will include among other things beef, ham, chicken, shrimp, relishes, salads, a variety of vegetables, homemade breads and rolls, and delectable desserts.

Serving time will be from 6 to 8 p.m. Proceeds will benefit the building fund.

Those interested in attending or acquiring more information or tickets may contact Dorothy Rexrode at WI 3-3161, a spokeswoman said.

Morrisville Woman Hurt In Accident

Five persons were taken to the hospital in separate accidents Saturday in Falls Township, police reported today.

Elizabeth Davis, 53, of 462 Hillside Ave., Morrisville, was a passenger in car which collided with another vehicle on Route 1 near Althea Drive, at 8:20 p.m. She was taken to Mercer Hospital Trenton with a whiplash of the neck.

The car was driven by Ralph Davis of the same address. The other car was driven by Robert Kernan, 54, of South Orange, N.J., who was charged with reckless driving, Falls police reported.

Car Slides
Russell P. Coleman 38 of 608 Princeton Ave., Trenton, and his passenger, Jerry DeSeo, also of Trenton, were taken to Mercer

Hospital after Coleman's car slid into a gravel pit. The accident occurred at 4:20 p.m. on South Pennsylvania Ave. in front of Lower Bucks County Motors. There were no charges.

Joseph Hanin, 27, of 10856 Perine Road, Philadelphia was treated and released at Lower Bucks Hospital for a lacerated forehead after his car struck a telegraph pole on Route 1 near the Strick Trailer plant.

Hanin reported to police he skidded when he slammed on his brakes to avoid hitting another car which had crossed the dividing line. The car was driven by Benjamin Bodine of 634 Barclay Ave., Morrisville, police said the accident occurred at 12:30 p.m.

2-Car Collision
Ellen Mae Price, 21, of 640 Lincoln Highway, Fairless Hills, was taken to Mercer Hospital with a whiplash of the neck, treated and released. The injuries were sustained when a car driven by her husband Max, 23, collided with a car driven by John W. Loughlin, 30, of Plainfield, N. J., on Route 1 in front of Brien's Trailer Park at 8:48 p.m.

In another accident Saturday at 1:50 p.m. a milk truck driven by Stanley Tomlinson of 7251 Kindred St., Philadelphia, hit an unoccupied car parked on Chelsea Road in front of 345.

election. "It would be one hectic mess," one Bucks County official said, "trying to get that fine money back from Harrisburg."

Bebington said today that McCarthy has currently suspended operations as a justice of the peace. He has filed for re-election. Bebbington said McCarthy could now apply to be appointed to fill the unexpired term, or another person, "who has expressed an interest," could file for the open JP post.

No Worries
Meanwhile, those married couples haven't a worry in the world, according to Bebbington.

Officials in Doylestown, who scammed through records covering a 15-month period during McCarthy's "expired" term, had first reported on Friday he had married one couple. After further checks, it was disclosed Saturday that McCarthy had married three couples.

"They are not only married by common law," Bebbington said, "but I would go further and say they are legally married because the courts would probably recognize McCarthy as a de facto officer."

Charge Man In Accident

A Bristol man was charged with reckless driving and driving while intoxicated after his auto struck a parked car in Bristol on Saturday.

Abraham Blanding, 39, of 132 Buckley St., Bristol, hit a car parked near Beaver St. and 3rd Ave. at 9:05 p.m., Bristol police said today.

The parked car is owned by Peter Caputa Jr., 915 Tulip St., Croydon. Blanding failed to pass a sobriety test given at the Lower Bucks County Hospital, a police spokesman said.

The accident was investigated by Sgt. Earl Buck and Officer Alfred Eastlack.

State Park Library Plans Social Evening

A social evening under the auspices of the membership committee of the Associates of the David Library of the American Revolution is set for Friday evening, at 8:30. The affair will be held in the Memorial Building of Washington Crossing State Park.

The Memorial Building is the shrine of Washington's historic crossing of the Delaware on Christmas Night, 1776. It is located on Route 32 approximately eight miles north of Morrisville, and four miles south of the Hope. The David Library of the American Revolution is in the east wing of the building in which hangs Emanuel Leutze's famous painting, "Washington Crossing the Delaware."

The public is invited to visit the David Library to see the collection of more than 600 historic documents including original manuscripts, letters and journals from such patriots as John Adams, Thomas Jefferson, Alexander

Hamilton, Patrick Henry, John Hancock, and George Washington. The library's collection also includes several hundred books and original publications relating to the American Revolution.

A special feature of the evening will be an address by David Taylor, author and authority on American history. Taylor, who is currently National Historian for the Freedoms Foundation, was the recipient of the 1960 Freedom Leadership Award, the Athenaeum Bronze Medal Fiction Award for his novel "Storm the Last Rampart."
